About
Speakers
Regina Kunkle – Moderator
Regional VP State and Local
Higher Education, SAP

Kunkle is responsible for the State & Local/Higher Education (SLED) division of SAP, where she is dedicated to helping governments utilize new technology and solutions to impact and improve citizens’ lives. She is passionate about getting young women and girls interested in science, technology, education, and math (STEM), and was named a finalist for the 2013 Stevie Awards Women in Business in the "Women Helping Women" category.

Kunkle holds a BS in computer science from the University of Maryland, an MBA in Management from Loyola College, and a law degree from George Washington University.

Jenean Hampton
Lieutenant Governor
Kentucky

Lieutenant Governor Jenean Hampton grew up watching her mother struggle to raise four girls. After earning a degree in industrial engineering, she served as a computer systems officer in the U.S. Air Force before rising up through the ranks during her 19-year career in the corrugated packaging industry.

In 2014, Hampton decided to run for the Kentucky State House, and in 2015, Governor Matt Bevin approached her to be his running mate. Since being inaugurated, she and the Governor have focused on developing tangible solutions to the issues that hamper Kentucky’s growth.

Aldona Valicenti
CIO
City of Lexington

Valicenti was named Lexington’s CIO in 2013 and served as the first appointed CIO for the Commonwealth of Kentucky during Governor Paul Patton’s administration. Since leaving state government, she has been the VP of consulting services at CGI and VP of business development and strategy for Oracle Corp.

Valicenti has won numerous awards, including being recognized as “public official of the year” by Governing magazine. She has testified in Congress on state technology issues and has advised a number of states and governors on the CIO role.
Kat Walsh
Datacenter Regional Manager
Cisco

Walsh manages Cisco System’s public sector Datacenter team, where she is responsible for a team of product specialists that span 26 states. With more than 16 years of experience in sales, marketing, channel partnerships, and multiple vertical market specializations, she has held a variety of management, sales, and technical positions at both EMC and IBM.

Kat is a proud graduate of Ole Miss and believes you should never underestimate the power of a smart, southern woman.

Dr. Carol Stettenkamp
Chief Medical Information Officer
UKY Healthcare

Dr. Stettenkamp is the Chief Medical Information Officer (CMIO) at the University of Kentucky, a practicing Professor of Pediatrics, and is active in the Healthcare Information and Management Systems Society (HIMSS), where she’s served in numerous leadership roles.

She graduated Magna Cum Laude from Xavier University, earned her medical degree at the University of Cincinnati, College of Medicine, and then graduated with honors from the University of Kentucky in pediatric medicine. She has received numerous honors and awards, including the Best Doctors National Award annually since 2007, AMDIS Physician Award for Excellence and Outstanding Achievement in Medical Informatics, and, most recently, one of the “75 Most Powerful Women in Health IT” by Health Data Management Corporation.

Dr. Nancy Cox
Dean of the College of Agriculture, Food, and Environment
University of Kentucky

Dr. Cox is the first female dean of the College of Agriculture, Food, and Environment at the University of Kentucky, where she oversees the college’s research portfolio, represents the college on agricultural commodity boards, and has been the key administrator in innovative alliances with private industry, including Alltech.

Dr. Cox has worked extensively with the Kentucky Farm Bureau, Kentucky Cattlemen’s Association, Kentucky Thoroughbred Farm Managers, Kentucky Poultry Federation, and many more to promote the University of Kentucky’s agricultural research and extension programs.
Andrea (Payne) Wilson
Engineering Management
Lexmark

Wilson began her career developing electronics for cellular test equipment and medical devices, where she worked with a team that developed the prototype for a kidney transporter that would eventually be listed in Popular Science’s Top 100 Innovations.

She has held several engineering and management positions within R&D for Lexmark, and is currently in engineering management.

Leya Thomas
Pharmaceutical Sales Representative
inVentiv Health for Janssen Pharmaceuticals

Thomas is a 2010 graduate of Eastern Kentucky University, where her research focused on behavioral endocrinology. After a research internship with Alltech’s Center for Nutrigenomics and Applied Animal Nutrition, she accepted a position in the life sciences at Alltech, specializing in GeneChip Technology, gene expression profiling, and molecular nutrigenomics.

In 2014, Thomas completed her MS in medical sciences at the University of Kentucky. She is now a pharmaceutical sales representative for inVentiv Health in the cardiovascular and metabolism division.

Shelby Albers
Analytics Project Specialist
Institutional Research and Advanced Analytics Department
University of Kentucky

Albers is a 2016 graduate of the University of Kentucky, where she earned a degree in mathematics with a minor in computer science. During her time there, Albers participated in STEM Club and conducted research in STEM education, but her favorite initiative was helping to bring #IAmAWomanInSTEM to UK’s campus as a student leader and steering team member.

Among other things, Albers credits the #IAMAWomanInSTEM movement for introducing her to the Institutional Research and Advanced Analytics Department at UK, where she now combines her passions for technology and education as an analytics project specialist.
Ashely McKenzie
Senior Account Executive
Adobe Software, Inc.

Ashely McKenzie is a senior account executive at Adobe Software, Inc., and a strong supporter of women in technology. Previously, she spent seven and a half years working as a client representative at IBM.

McKenzie holds a degree in integrated strategic communications from the University of Kentucky, and is currently pursuing a master’s degree in business informatics at Northern Kentucky University, where she is a member of the Women in Informatics group. McKenzie has also been a “Big Sister” in Big Brothers/Big Sisters of the Bluegrass for over 11 years, and frequently advocates for more Big Sisters to join the program.
